

The students in KO are settling into school and classroom routines really well and are learning lots of new and exciting things!

In mathematics, we are learning to count to 30, backwards from 20 and skip count by 10s up to 100. We are also learning to represent numbers in different ways.

In literacy, we are learning to segment and blend words and this has helped us with our writing and reading. We love using the strategy 'Draw, Talk, Write and Share' to record our ideas in writing.

In creative arts, we have used storybooks as our inspiration to create some amazing artworks!
