

# SUPPORT UNIT IN TERM 1

The students in the Support Unit happily returned to school in 2025 and were excited to see the familiar staff and their friends. We welcomed the following new students to our classes and their families to FWPS: Ibrahim, Elissa, Tolin, Azka, Mai, Ali, Markus, Carter, Ashur, Danny, Azka and Drae.

The students have settled well into their classroom routine and over the term have enjoyed the many opportunities to engage in a range of hands on and differentiated learning activities. Some of the highlights for this term include participating in Fit Futures and learning new games and skills, drumming with Mr Jarrah, participating in the K-2 and 3-6 cross country and completing artwork for Harmony Day and Autism Awareness Day.

Some of the students had the opportunity to work with Peter Dawe, the Lead Youth Community Greening Coordinator from the Botanical Gardens. They participated in his hands-on greening project, the students and Mr Carr created a very colourful and vibrant garden near the Community Hub. The students have also taken responsibility for taking care and maintaining this garden.

K/6C staff and students look after the vegetable garden and worm farm near the Community Cottage. They look forward to watering the garden and have lots of fun looking after the vegetable garden and newly established garden near the Community Cottage. The students look forward to picking any vegetables that are ripe and sharing them with their class and families.
