

WELCOME TO OUR GREENHOUSE OF GROWTH

In 6L, we are a collaborative, curious and creative bunch who thrive on meaningful discussions and shared discovery.

Our classroom is rooted in the theme of plants and growth, reminding us daily of the importance of learning together and supporting one another.

This year we have explored powerful texts like *Storm Boy* and *Rabbit, Soldier, Angel, Thief* building rich vocabulary and deepening our understanding of empathy, identity and resilience. In science, we've investigated the fascinating world of adaptation, learning how living things survive and thrive in changing environments. As leaders of the school, we are growing not just in knowledge, but also kindness and confidence.
