

K/6P

Students in K/6P have made a fantastic start to term 2, embracing and adjusting to new routines in the classroom. They have particularly enjoyed hands-on activities in literacy and Mathematics. In literacy lessons, students were actively engaging with a variety of texts, including picture books and informational texts. In maths, we have been learning to solve problems at our own levels. We have also been learning patterns and positions. Students have enjoyed art lessons, and their creativity is flourishing as they are learning to express their ideas visually.
